INDEX, VOLUME 136

A

Adamkiewicz, Joseph J., 298
Administration in Psychiatry, 600
Adult myxedema, psychotic behavior as the initial indicator of, 561
Adult Negro male mental patients, family structure of in urban Baltimore, 245
Affect states and other subjective experiences, effects of phenothiazines on, 173
Against-medical-advice (A.M.A.) discharge of psychiatric patients, 288
Aird, Robert B., 517
Alcohol and diazepam (Valium®) effects on psychomotor performance, 550
Alexander, A. A., 535
Aliphatic and piperazine phenothiazines, comparison of, 178
Allport, Gordon W., 100
Amadeo, Marco, 139
American psychiatry, development of in relation to psychoanalysis, 59
Angiography, serial, application of to diagnosis of smallest cerebral angiomatous malformations, 1
Anshin, Roman N., 187
Antidepressant medication, patient's response to, influence of doctor's attitude on, 555
Application of serial angiography to diagnosis of the smallest cerebral angiomatous malformations, 1
Association and dissociation, continuum for, 374
Association, late, of syndrome, and syndrome shift, significance of in psychosomatic medicine, 34
Ataxia, hereditary, of rabbits
corticotropin in, 302
identification of glycogen in hind-brain lesions, 130
Atkinson, Arthur J., 309
Attention, eye movements, hypnosis and, 139
Attitude, doctor's influence of on patient's response to antidepressant medication, 555
Attitude toward psychoanalysis, shifts in, 60
Attitudes of hospitalized patients toward mental health professionals and mental patients, 72
Attitudes of mothers of hospitalized patients, 76
Attitudes of psychiatric patients toward treatment, psychiatrists and mental hospitals, 68

B

Backner, Burton L., 72
Barker, Curtis H., 201
Barrier, blood-brain, in clinical disease, 517
Barton, Walter E., 600
Bartunek, Elmer J., 207
Baxter, James C., 352
Beard, John H., 507
Becker, Ronald A., 517
Behavior, psychotic, as the initial indicator of adult myxedema, 561
Benton test, mental deficit, schizophrenia and the, 279
Binger, Carl, 515
Blind subject (congenitally), detection of dreaming in, 88
Block, Jack, 604
Blood-brain barrier, endothelial component, 520
Blood-brain barrier, the, in clinical disease: A review, 517
Body movement and speech disturbance in interviews, 263
Body-part size judgment in contrasting intellectual groups, 368
Boomer, Donald S., 263
Boshes, Benjamin, 1
Boyd, Stuart, 306
Brain
blood-brain barrier in clinical disease, 517
cerebral angiomatous malformations, serial angiography in diagnosis, 1
glycogen in hind-brain lesions in rabbit hereditary ataxia, 130
hereditary ataxia of rabbit, corticotropin in, 302
high frequency thermal induction lesions of, 298
rheoencephalography (technique), 388
tentorial notch, syndromes of, 118
Brain damage, psychology's concern with, 344
Brill, Norman Q., 29
Brock, Larry D., 207
Brody, Eugene B., 58, 245
Brooks, George W., 432
Brumlik, Joel, 1
Brush, Richard W., 288
Buie, Dan H., Jr., 15, 168
Burgemeister, Bessie, 94
Burhoe, Ralph W., 199
Burton, Charles V., 298

C

Cahn, Burton, 550
Can the chronic schizophrenic patient remain in the community?: A follow-up study of 24 long-term hospitalized patients returned to the community, 455
Capillary pattern, nailfold, and selected psychiatric traits, familial schizophrenia as defined by, 216

Cerebral angiomatous malformations, smallest, application of serial angiography to diagnosis of, 1
Chapman, Loren J., 352
Child and parent in the development of the Oedipus complex, 227
Childhood Schizophrenia, 305
Chlorpromazine, promethazine, trifluoperazine and perphenazine, comparative study of effects of in normal males, 15, 168
Chronic frigidity, treatment of by systematic desensitization, 272
Chronic schizophrenia, cohesive small group in treatment of, 579
Chronic schizophrenic patients
follow-up study of 24 long-term hospitalized patients returned to the community, 455
released, varieties of family participation in rehabilitation of, 432
Clinic patients, neurotic phobic, long-term follow-up study of, 267
Clinical disease, blood-brain barrier in, 517
Clinical Electroencephalography, 307
Clinical psychiatrist's individualistic point of view of psychopharmacologic agents: Patient and doctor variables, 540
Coercive Persuasion: A Socio-Psychological Analysis of the Brainwashing of American Civilian Prisoners by the Chinese Communists, 201
Cognitive performance, effects of phenothiazines on, 171
Cohen, Jerome, 309
Cohesive small group, the, in treatment of chronic schizophrenia, 579
Coleman, Jules V., 267
Colleagues, how the psychiatrist appears to, 187
Community follow-up, long-term, of formerly hospitalized psychotic patients, 445
Comparative Psycholinguistic Aspects of Two Psychotherapeutic Interviews, 197
Complaints about psychiatrists, 192
Complex, Oedipus, parent and child in the development of, 227
Conflict, revelation of in jokes among Southern Negroes, 162
Congenitally blind subject, detection of dreaming in, 88
Conjoint family therapy: Its role in rehabilitation of the inpatient and family, 500
Continuing problems in the relationship between training in psychiatry and psychoanalysis in the U.S.A., 58
Continuum for dissociation-association, 374
Contrasting intellectual groups, body-part size judgment in, 368
Convulsive therapy: ECT or Indoklon, 597
Corticotropin in hereditary ataxia of rabbit, 302
Criminal responsibility, what can the psychiatrist contribute to the issue of? 103
Crumpton, Evelyn, 29, 187
Cry for Help, The, 310
Cultural Aspects of Delusion: A Psychiatric Study of the Virgin Islands, 196
Current practices in psychosocial rehabilitation, a critical evaluation of, 424
Curtis, Barbara B., 432

D

Deane, William N., 432
Definition, functional, and direct measurement of vocal hallucinatory symptoms, 293
Definition of roles in group psychotherapy, 256
Deikman, Arthur J., 329
Delinquency, juvenile, military offenses and, 569
Delinquency, parental attributes and character formation of prisoners and control enlisted men, 569
Denber, Herman C. B., 445
Depression and galvanic skin response (relationship between physiological and psychological responsivity), 535
Depression, methods for treating evaluated after elapse of one year, 492
Derbyshire, Robert L., 245
Desensitization, systematic, treatment of chronic frigidity by, 272
Detection of dreaming in a congenitally blind subject, 88
Detre, Thomas P., 475
Development and current status of psychoanalytic institutes, 58
Development of American psychiatry in relation to psychoanalysis, 59
Development of six sound motion pictures simulating psychotherapeutic situations, 317
Dewhurst, Kenneth, 594
Diazepam (Valium®) and alcohol effects on psychomotor performance, 550
Differential patient expectations and responses in two clinics, 545
Dillon, Edward T., 298
DiMascio, Alberto, 15, 168
Direct measurement and functional definition of vocal hallucinatory symptoms, 293
Discharge of psychiatric patients against medical advice (A.M.A.), 288
Disease, clinical, blood-brain barrier in, 517
Dissociation-association continuum, the, 374
Disturbance in speech and body movement in interviews, 263
Doctor and patient variables in evaluation of psychopharmacologic agents, 540
Doctor's attitude, influence of on patient's response to antidepressant medication, 555
Documents of Gestalt Psychology, 96

Dream, seventeenth-century, interpreted, 594
Dreaming, detection of in a congenitally blind subject, 88
Drug-dose actions, dimensions of at time of peak effect, 168
Drug effects, relevance of to clinical effectiveness, 182

E

ECT or Indoklon: Comment, 597
Editorials, 421, 515
Effects of diazepam (Valium®) and alcohol on psychomotor performance, 550
Eiduson, Samuel, 29
Eissler, K. R., 315
Electroconvulsive treatment, the role of fear in, 29
Emotional Factors in Pulmonary Tuberculosis, 603
Employment, transitional, use of in the rehabilitation of the psychiatric patient, 507
Encounter, mothering, the structure of, 146
Endothelial component of blood-brain barrier, 517

Eppes, Bennett, 527
Erickson, LaVerne, 302
Errera, Paul, 267
Etiological factors in transtentorial herniations, 120
Everett, Henry C., 283
Evidence, further, about the Poetzl phenomenon, 527
Evolution and Man's Progress, 199
Expectations of patients, variable, and responses in two clinics, 545
Experiment in teaching group psychotherapy, an, 252
Experimental meditation, 329
Eye movements, attention and hypnosis, 139

F

Familial schizophrenia as defined by nailfold capillary pattern and selected psychiatric traits, 216
Family interaction as a factor in prolonging hospitalization, 485
Family interaction evoked by the revealed differences technique, prediction of therapeutic themes from, 464
Family-oriented redefinition, a, of psychiatric services in general hospitals, 475
Family participation, varieties of, in rehabilitation of released chronic schizophrenic patients, 432
Family structure of young adult Negro male mental patients: Preliminary observations from urban Baltimore, 245
Family therapy, conjoint: Its role in rehabilitation of inpatient and family, 500
Family unit, society and rehabilitation, 422
Farberow, Norman L., 310
Fear, the role of in electroconvulsive treatment, 29
Fiction, the psychiatrist in, 43
Fish, F. J., 314
Fishman, Melba, 68
Follow-up, long-term community, of formerly hospitalized psychotic patients, 445
Follow-up study, long-term, of neurotic phobic patients in a psychiatric clinic, 267
Follow-up study of 24 long-term chronic schizophrenic patients returned to the community, 455
Foundations of Psychopathology, 91
FPN test for phenothiazines, inability to validate, 591
Freyhan, Fritz A., 424
Frigidity, chronic, treatment of by systematic desensitization, 272
Functional definition and direct measurement of vocal hallucinatory symptoms, 293
Futterman, Edward H., 569

G

Galvanic skin response and depression (relationship between physiological and psychological responsivity), 535
Galvin, James A. V., 306
Garrett, James F., 599
Gelfand, Sidney, 379
Geller, Edward, 29
General hospitals, psychiatric services in: A family-oriented redefinition, 475
Giffen, Martin B., 91
Glycogen, identification of in hind-brain lesions in hereditary ataxia of rabbits, 130
Golden, Myra, 464
Goldfarb, William, 305
Gottschalk, Louis A., 197
Gralnick, Alexander, 500
Greenfield, Norman S., 535
Group, cohesive, small, in treatment of chronic schizophrenia, 579
Group psychotherapy
an experiment in teaching, 252
definition of roles in, 256
Guttmacher, Manfred S., 103
Gynther, Malcolm D., 68

H

Hallucinatory symptoms, vocal, direct measurement and functional definition of, 293
Hamilton, James Alexander, 607
Hamlin, Roy M., 360
Harrower, Molly, 205

Havens, Leston L., 15, 168
Hazy horizon, the: A critical evaluation of current practices in psychosocial rehabilitation, 424
Hendin, Herbert, 236
Henle, Mary, 96
Hereditary ataxia of rabbits
corticotropin in, 302
identification of glycogen in hind-brain lesions, 130
High frequency thermal induction lesions of the brain, 298
Hoagland, Hudson, 199
Hospital-released formerly psychotic patients, long-term community follow-up of, 445
Hospital-released long-term chronic schizophrenic patients, follow-up study of 24 returned to the community, 455
Hospitalization, family interaction as a factor in prolonging, 485
Hospitalization, mental illness and treatment, psychiatric patients' views of, 82
Hospitalized patients' attitudes toward mental health professionals and mental patients, 72
Hospitals, general, psychiatric services in: A family-oriented redefinition, 475
How the psychiatrist appears to his colleagues, 187
Hypnoanalysis, 203
Hypnosis
and meditation, 339
eye movements and attention in, 139

I

Identification of glycogen in hind-brain lesions in hereditary ataxia of rabbits, 130
Identity problem, psychiatrist's, psychotherapy and, 61
Internal Perception and Bodily Functioning, 606
Improved and unimproved schizophrenic subjects, vocabulary deficit in, 360
Inability to validate the urinary FPN test for phenothiazine drugs and suggestions as to cause, 591
Independent institute, the, and the university psychiatry department, 65
Influence of doctor's attitude on patient's response to antidepressant medication, 555
Initial indicator, psychotic behavior as, of adult myxedema, 561
Indoklon or ECT: Comment, 597
Induction, thermal, high frequency lesions of the brain, 298
Inpatient and family, rehabilitation of, role of conjoint family therapy in, 500
Intellectual groups, contrasting, body-part size judgment in, 368
Interaction in family as a factor in prolonging hospitalization, 485
Interaction in family evoked by the revealed differences technique, prediction of therapeutic themes from, 464
Interpretation of a seventeenth-century dream, 594
Interviews, speech disturbance and body movement in, 263
Introduction: Some comments on rehabilitation, the family unit and society, 422
Investigation of Carbon Dioxide Therapy, 309
